

THE EVOLUTION

**BUZZi 34' LIFT**

Driver and co-driver are located on a tecno-double seat

Lift

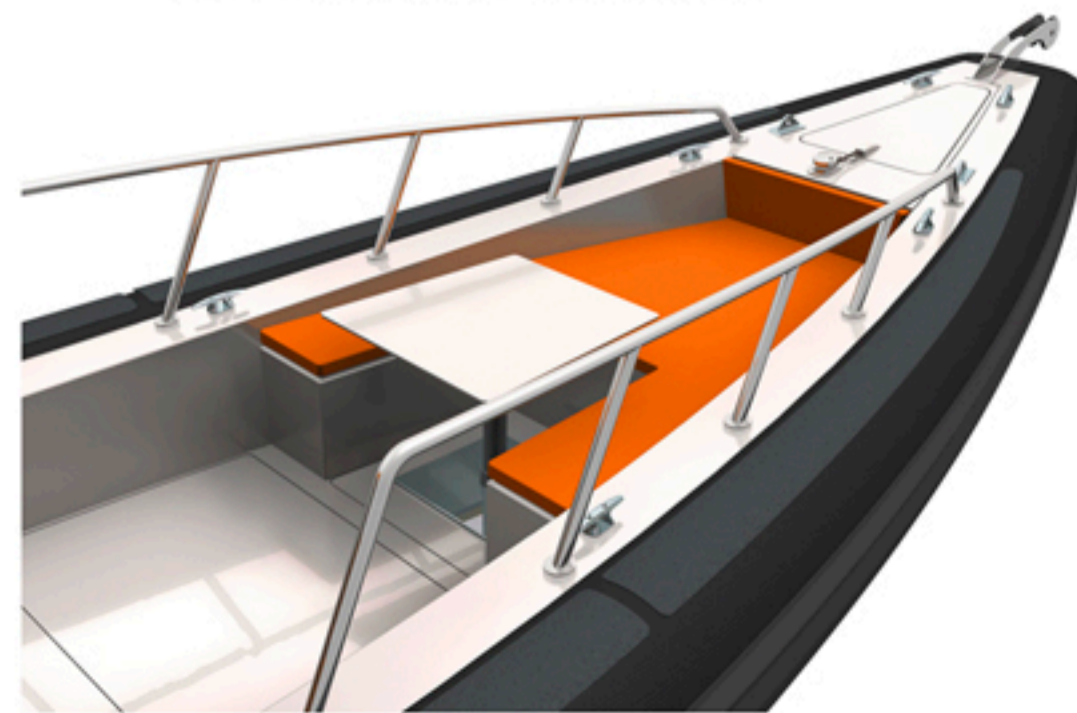

The deck lay-out is modular with all the options in use on RIB 39'.  
The exclusive hydraulic lift can take in and out of the water all possible persons with zero effort.  
The rear sunbed is extended over the engines.

- **MAX BEAM INFLATED** 3.20m / 10.5 ft
- **MAX BEAM DEFLATED** 2.33 m / 7.6 ft
- **DRAFT** 0.8 m / 2.6 ft
- **DRY WEIGHT** 2900 kg
- **OUTBOARD ENGINES** Mercury Verado 300 Hp

- **CONTROL HEAD** Mercury DTS Smart Craft
- **CE DESIGN CATEGORY** B
- **MAX PASSENGERS** 16
- **MAX SPEED** 60 Kn
- **RANGE AT 35 KN** 250 NM
- **FUEL CONSUMPTION AT 35 KN** 75 L/h

**T**he Buzzi 34' Lift is the new born among the Buzzi Rib series; it is a natural evolution based on the very successful RIB 39', shorter enough to stay within the non-registered boats limit of 10m.

■ The boat is entirely CAD designed, its mathematics are then transferred to our 5-axis milling machine, used to mill the plug of the hull, the deck and all the accessories; this procedure guarantees very precise shapes.

■ Thanks to the revolutionary Structural Foam® injection system, the Buzzi 34' Lift is unsinkable, and this trasmits an impressive toughness feeling to the pilot. The perfect symmetry and balancing offers the best stability performance an every condition.

■ The 34' Lift features an innovative aft sun bed shape, completely enwrapping the engines, wich results in an incredible layout; in addition, the optional hydraulic elevator will lift you on board simply by pushing a button.

■ Performances are guaranteed by FB Design's 54 world titles in almost every existing boat racing class, and by the over 40 speed records, set in the past 40 years of racing.

■ The boat fits in a 40' container, thus allowing easy and cheap worldwide transportation.
